J. H. Burrow's Patent Plantation CORY MILL.

THIS Mill differs from all others in the construction of the upper or Rimining Stone, which is composed of French Burr Blocks, enclosed in a cast fron Case, which forms the back and hoop of the Stone with a Cast Iron Eye, or Bush, than is of greeter external diameter at the bottom that at the top, which is secared to the back by four bolts, so that every block is in the form of a dove tall which gives greater strength to a Stone than any other method which is required in small mills, where the stone is run with great speed, and becomes dangerous if not strongly made. It also gives any weight to a stone of small diameter that is required without having it thick or high, that makes it top beavy.

This mill is a square frame made of wood or cast fron, in having it thick or high, that makes it top beavy.

This mill is a square frame made of wood or cest from in
the form of a bush, with Endge tree, Spindle Eulance, Ring
Driver, and Engulating Server, and grinds upon the same
principle as a large mill, differing only in the Ranner Stone;
this being of great weight enables it to gried awarer the center a greater quantity of grain with he a power than any other
mill now in use. This mill apportable, mill may be attached
to steam, water, horse or hand hower.

ALSO, all sizes of French Burr hill Stones, manufactured
on the same principle.

Joseph H. Barrows, of Cincinnati, is the inventor, for
which he obtained factors Phient in 1842. For allieffulgements the purchaser walles a Wileight to not them put and

mended.

Inserviews for Using.—Place your mill about 20 feet from the Driving Pulley in a level position make the belt of lather six or eight inches wide. Give the Stonessi revolutions a minute with the son. Keep the next and step of the spindle, well cited. Place the store in the back of the the spindle well oiled. Place the star on the back of the Running Stone, in the same way as the Cross on the Driver, that is, the way they are trimmed to run.

MEDICAL.

Entered according to Act of Congress, in the year 1851, by
J. S. HOUGHTON, M. D., in the Clerk's Office of the
District Court for the Eastern District of Pennsylvania.
REAT CURE FOR DYSPESIA!—ANOTHER SCIEN-DR. J. S. HOUGHTON'S

THE TRUE DIGESTIVE PLUID, OR GASTRIC JUICE, PREPARED from Romet, or the Fourth Stomach of the Ox, after the directions of Baron Liebig, the great Phy-siclogical Chemist, by J. S. Houghton, M. D., Philadelphia, Penn.
This is a truly wonderful remedy for Indigestion, Dyspep-sia, Jaundice, Liver Complaint, Consumption and Debility, curing after Nature's own method, by Nature's own Agent, the Gastric Juice.
Half a tea-spoonful of Pepsin, infused in water, will digest

or dissolve live pounds of roast beef in about two boars, out of the stomach. of the storach.

Pepsin is the chief element or digesting principle of the Gastric Juice—the solvent of the food, the purifying, preserving and stimulating agent of the stomach and intestines. It is extracted from the digestive storach of the Ox, that forming an artificial digestive fluid precisely like the natural Gastric Juice in its chemical powers, and furnishing a complete and perfect substitute for it. By the aid of this preparation, the pains and evils of Indigestion and Dyspepsin are removed just as they would be by a healthy stomach. It is doing wonders for dyspeptics, during cases of Debility, Emaciation, Nervous Decline and Dyspeptic Consumption, supposed to become the verge of the grave. The scientific evidence upon which it is based is in the highest degree curious and remarkable.

Scientific Evidence.—Baron Liebig, in his celebrated work on Animal Chemistry, says: "An Artificial Digestive Fluid, analogous to the Gastric Juice, may be prepared from the muccus membrane of the stomach of the Ox, in which various articles of food, as ment and eggs, will be softened, need and directed, just in the same manner as they would

be in the auman atopasel. Jost in the same manner as any about be in the auman atopasel.

Dr. Preira, in his famous treatise on "Food and Diet," published by Fowler & Wells, New York, page 25, states the same great fact, and describes the method of preparation. There are few higher authorities than Dr. Priera. There are few higher authorities than Dr. Priera.

Dr. Combe, in his valuable writings on the "Paysiology of Digestion," observes that "a diminution of the due quasitity of the Gastrie June is a prominent and all-prevailing cause of Dyspepsin;" and he states that "a distinguished professor of mellicine in Lombon, who was severely afficied with this complaint, in ling every thing else to fail, had recourse to the Gastrie June, outsined from the storaghts of living animals, which proved completely successful."

Dr. Graham, author of the famous works on "Vegetable Die," says: "It is a remarkable factin Physiology, that the storagets of animals, maccrated in water, impart to the fluid stomachs of animals, amounted in water, impart to the fluid the property of dissolving various articles of food, and of ef-fecting a kind of artificial digestion of them in no wise diferent from the unitual digestive process."

Dr. Sonon's great work, the "Chemistry of Man," (Lee & Pr. Sanon's great work, the "Chemistry of Man, Lee & Blanchard, Plaindelphia, 1848, pp. 521-2,) says: "The discovery of Pepsin forms a new era in the chemical history of digestion. From recent experiments we know that food is dissaired as rapidly in an artiacan digestive fluid, prepared from Pepsin, as it is in the natural Gastrie Juice itself.

Professor Dunglisan of the Jefferson College Philadelphia, in his great work on Human Physiology, devotes more than fifty pages to an examination of this subject. His experiments with Dr. Beamsont, on the Gastrie Juice obtained from the living human stornach, and from animals, are well

ments with Dr. Reamount, on the Gastric Julice obtained from the living human storanch, and from animals, are well known. "In all croses," he says, "digestion occurred as perfectly in the artificial as in the natural digestion."

Dr. John W. Draper, Professor of Chemistry in the College of the University of New York, in his "Text Book of Chemistry," page 256, says: "It has been a question whether artificial digestion could be performed—but it is now universally admitted that it may be."

Dr. Carpenter's standard work on Physiology, which is in the library of every physician, and is used as a text-book in all the colleges, is full of widence similar to the above, reall the colleges, is full of evidence similar to the above, re-specting the remarkable digestive power of Pepsin, and the fact that it may be readily separated from the stomach of the calf or ex, and used for experiments in artificial digestion, or as accusedy for diseases of the stomach, and deficient secre-

All modern works on Chemistry, Materia Medies and Physiology, and all good Medical Dictionaries, describe the character and properties of Pepsin, and state many interesting details respecting it.
The fact that an Artificial Digestive Fluid, or Gastrie Juice, perfectly resembling the natural fluid, may be readily pre-pared, does not admit of quantum. The only winder is, that it has not before been applied to the cure of Indigestion and Dyspepsia—so naturally does such a use suggest itself to the

As a Dyspepsia Curer, Dr. Houghton's Persin has produced the most marvellous effects, in cases of Debility, imenation, Nervous Declino, and Despeptic Consumption. It is suppossible to give the details of cases in the limits of this naivertisement, but antianticated certificates have been given of more than two lamatred remarkable cores, in Philadelphia, New York and Boston alone. Those were nearly all

deriot, but permanent.

It is a great nervous antidote, and particularly useful for tendency to Edicuse Discrier, Liver Complaint, Fever and Ague, or hardy treated Fever and Ague, and the evil effects of delaine and Mercury and other drugs upon the digustive organs, after a long sickness. Also, for excess meaning, and the too free use of graint spirits. Indinastruconciles health with intermerance. with intemperance.

Old Stomuch Complaints.—There is no form of Old Stomuch Complaints.—There is no form of Old Stomach Complaints which it does not seem to reach and remove at once. So matter how bad it may be, it gives instant relief! A single does remove sall the unpleasant symptoms; and it only beeds to be repeated for a short time to make these good effects parameter. Purity of blood and vigor of breity follows at once. It is particularly excellent in cases of Nassaa, Vonating, Crimps, Soroness of the Pit of the Stomach, Distress after Enting, Lew, Cold State of the Bisod, Heaviness, Ioweness of Soirits, Despeadency, Emaciation, Weakness, Tenderacy to Insanity, Sticaida, &c.

Dr. Houghton's Pepsin is sold by nearly all the dealers in fine drugs and popular medicines throughout the United State. It is prepared in powder and in fluid form, and in prescription vials for the use of physicians.

DR. ARNOLD'S UNION PILLS. Gusus Hill, Teun., January 19, 1852. Dean Sir-I consider it but an act of jus-Dr. Arron. Dr. Sir. I consider it but an act of justice to yourself and the community, to state to your Laten Pills. Having been for quita a number of years, greatly troubled with dispersia, and constipation of the bowels; altimes alarming me greatly. I used every other remedy, altimes alarming me greatly, I used every other remedy, altimes that I ever read or head of for the disease, all without the least beneficial effect. I had almost come to the belief, that it was useless to try any more; as I labored under great debility, and my stomach was greatly injured by taking the different Pills, medicine, &c.; but on hearing my neighbors speak so frequently of the heneficial effects of your Union Pills, I concluded to give them a trial, and bought a fifty cents vial, and commenced their use. From the first dose of one Pill I was satisfied it was the medicine for me. I have not yet used quite one vial, and can now say to you with the utmost pleasure, that I have not for the head ten years felt as well, or enjoyed such good health, as I have sum for the good these Pills have done me, and almost every branch of my family have used then with the same happy effect. At times some of the negroes have had symptoms of fever—at the first complaint I have given them one or two Pills, and never had to repeat the dose but once, which effected a cure. Your other medicines used by my family, here better the contractions. effected a cure. Your other medicines used by my family, have had the most happy effect. I shall always keep a supply of your Pills on hand, and I think that no one, laboring as I have under great debility and dyspepsia, with eil there evil consequences, but what would, after a use of your medidines, join me in saying the same of them.

The following commendation is from an agent resid ing at Trenton, fennessee. TRESTON, Gibson County, Tenn., Nov. 7, 1848.

Messrs, Scoval & Mean—Gentlemen: The Hebrew Plasser is becoming papular in this section. There is a lady in this county who says she would not be without this Plaster for five hundred dollars a year. She was afflicted for some time with an enlargement of the spleen, which gave her a great deal of pain. The swelling and pain had extended agreat deal of pain. The stretting and pain and extended up nearly to the arm-pit, and occasionally she could scarcely breathe. She was confined for a considerble time, during which she was attended by some of our best physicians, but they gave her no relief. She procured a box of the Hobrew Plaster, and it relieved her aimost immediately, and now she keeps a supply of it on hand constantly. These facts ron are at liberty to use as you think project—they are anhistantially true.

Respectfully, yours, &c.
